

# (De)Construction for circular economy

## FCT NOVA contribution to the project

FCT NOVA coordinates

- WP7: Information, awareness and training

FCT has an important contribution to some tasks included in:

- WP 1: Baseline situation and follow-up (CCDRA coordination)
- WP2: Regulatory framework (IPP coordination)

# Main results expected

## WP 7: Information, awareness and training (FCT NOVA coordination)

- Stakeholders consensus about the strategic action for the region, through participatory actions created and repeated along the project
- Transmit knowledge to CIMBAL municipalities and small regional construction companies about best practices and legal framework
- Capacitate the European project partners with the results from Portuguese participatory actions

# Main results expected

## WP 1: Baseline situation and follow-up

(CCDRA coordination)

- Quantitative and qualitative data of CDW generation and recovery at CIMBAL region
- Estimate CDW illegal dumping at CIMBAL region, through monitoring work along the project
- Best practices, constraints and examples of success in the region, regarding the activities related to selective demolition and pre-demolition audits
- Characterization of regional construction sector dynamics

# Main results expected

## WP 2: Regulatory framework

(IPP coordination)

- State-of-the art of the European (project partners) and national (CIMBAL municipalities) legal framework for CDW management and related topics
- Creation of a common regulatory baseline along the project for the CIMBAL municipalities
