# How to find a Norwegian Partner in Education?

# Diku – the Norwegian Agency for International Cooperation and Quality Enhancement in Higher Education

Aims to **strengthen the quality** of Norwegian education by promoting and funding **development and innovation** in education, encouraging **international cooperation** and **digital learning** methods.

# The Norwegian education system

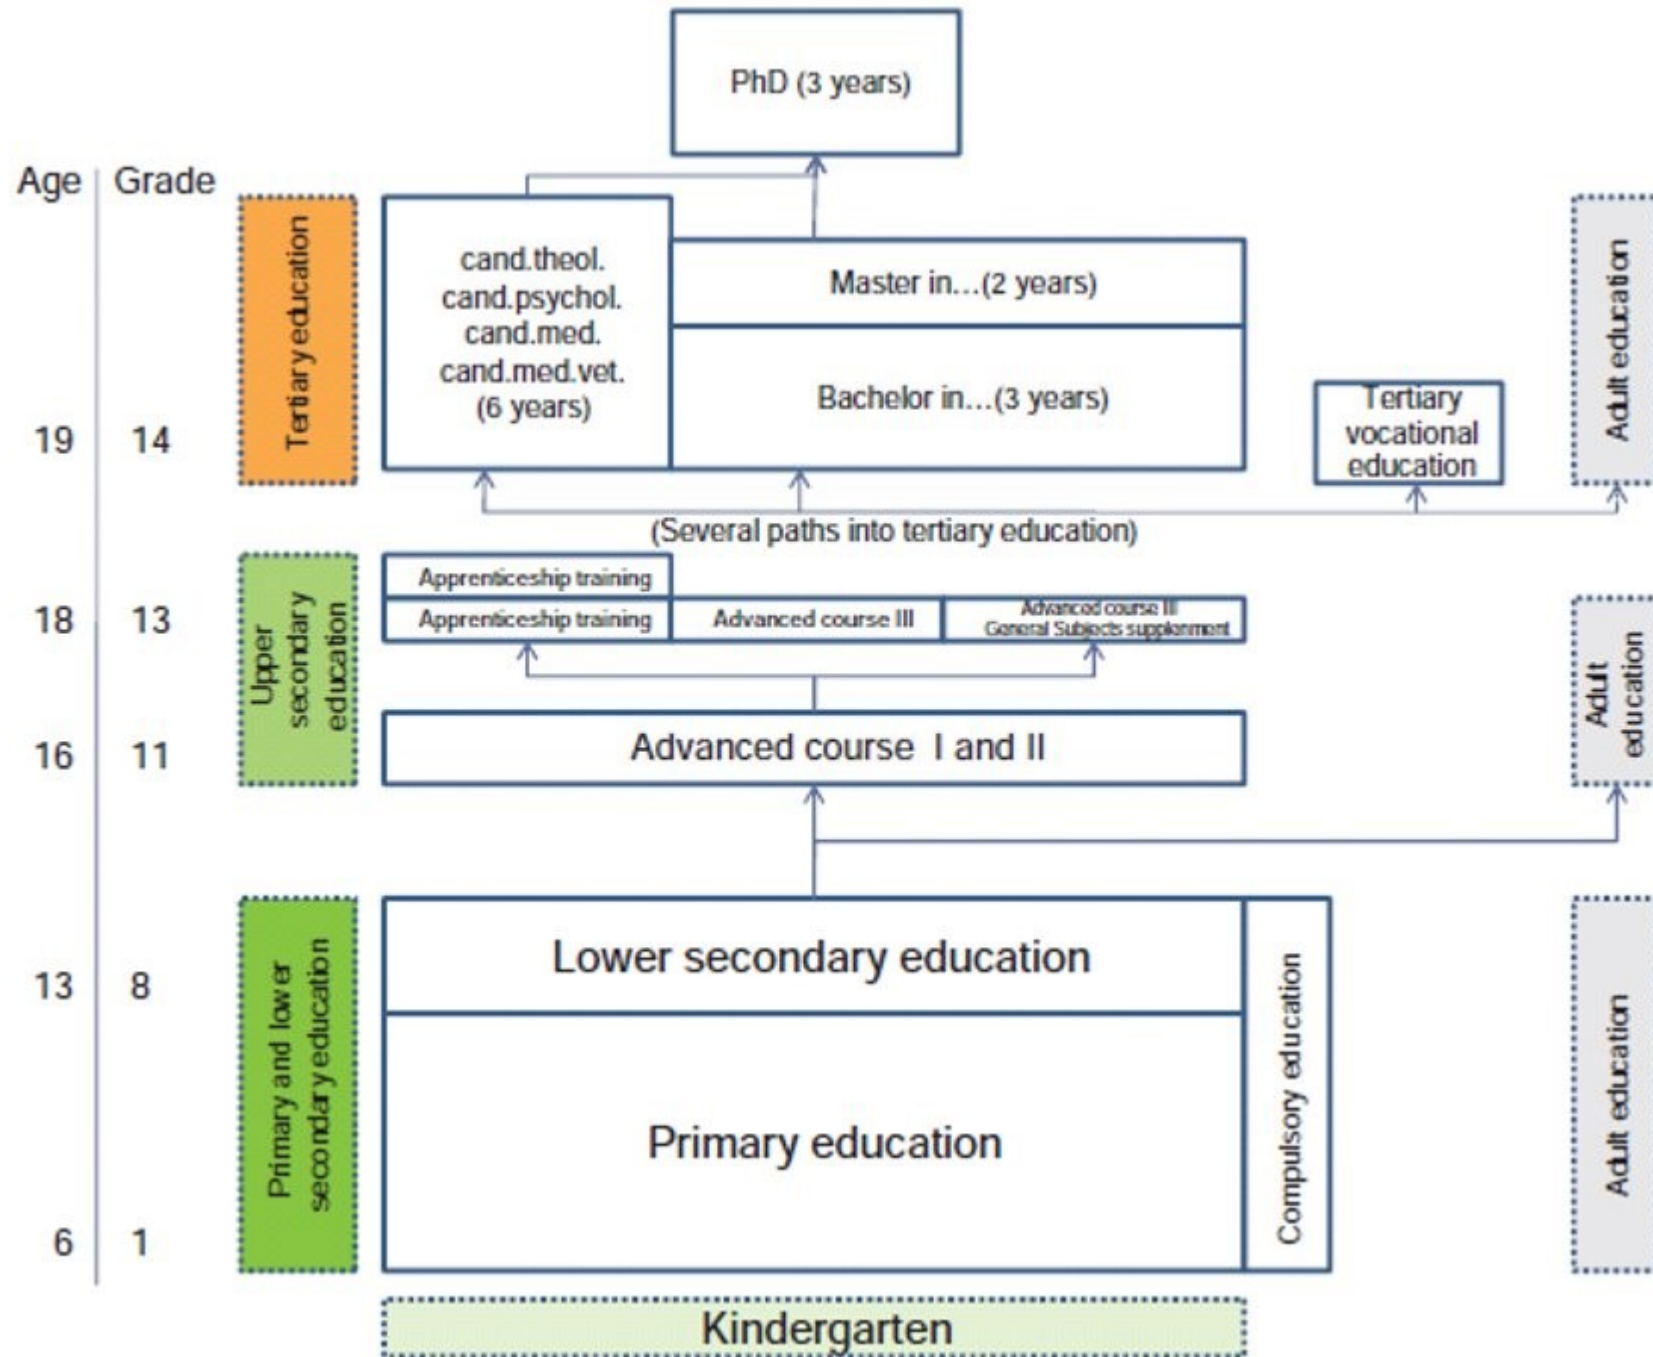

## Relevant to this call are:

- Primary and secondary schools (1-10 grade)
- Upper secondary schools (High Schools)
- Vocational Education and Training (VET) including upper secondary and higher edu
- Higher Education institutions

## Structure higher education:

3+2+3 degree (Bachelor, Master and PhD)

# Finding a partner – where to begin

- Previous project partners
  - [EEA/Norway Grants](#)
  - [Erasmus+](#)
- Ongoing collaborations
  - Research and education projects funded via EU programmes for research and education, for instance [this project](#).
- Other resources
  - Study in Norway – list of bachelor and master programmes offered in English
- Networks within the marine and maritime sector

# Contacting potential partners

1. Present a (reasonably) clear picture of the project or the activity.
2. Your inquiry should be clear, comprehensive, tempting and not too long.
3. You should invite the DS partner to be involved in the project development.
4. Send your inquiry as early as possible.
5. Try to reach out to the right people.

## **Do your homework!**

# Diku's priorities

We actively promote projects aiming for:

1. Strengthened and increased cooperation via digital tools and means
2. Synergies between research and education, for instance involving students/pupils/apprentisages in research activities
3. Cross-sectoral cooperation, for instance between level of education but also with the business sector

**Thank you**
