## PRELIMINARY MATTER

The Algarve is a region in the South of Portugal subject to various expressions of climate change.

The Algarve is a diverse territory committed to the search for new balances of sustainability, development and valuation of its assets.

# PRELIMINARYMATTER THEREIS CLIMATE CHANGE, THE ALGARVE IS ACTING. MAMAL Awk - ADAPTATION WITH KNOWLEDGE, CLIMATE CHANGE | 4

#### **Promoter:**

**AMAL** 

#### **Project Partners:**

The Algarve Tourism Region (RTA)

The Norwegian Association of Local and Regional Authorities (KS)

# INVESTMENT

GLOBAL INVESTMENT 234 962.13€

## **EXPECTED RESULTS:**

- **E1.** Operationalisation and monitoring of PIAAC. Reinforcement of the Plan's management, development, monitoring and evaluation mechanisms by municipal promoters and the Monitoring Council, through a management tool Balance Score Card (BSC).
- **E2.** Exchange and consolidation of knowledge based on practical cases of adaptation to climate change, through interactions with entities similar to AMAL or Norwegian municipalities.

## **EXPECTED RESULTS:**

- **E3.** Technical Training Preparation of a Guide to support the implementation of municipal strategies and training sessions for municipal technicians.
- **E4.** Awareness raising and dissemination Raising the awareness of residents, tourism promoters and tourists of the importance of adapting to climate change through campaigns, micro sites and the final event of the joint project.
