

Fund for Bilateral Relations

FBR Open Call #2

Portugal & Norway – Partnerships for Innovation

V.01

The European Economic Area Financial Mechanism (EEA Grants) supports initiatives aiming at strengthening bilateral relations between Iceland, Liechtenstein and Norway (Donor States) and Portugal through the **FUND FOR BILATERAL RELATIONS**, a fund operated by the National Management Unit (UNG)¹ that acts as National Focal Point.

Through the Joint Committee of Bilateral Funds (JCBF) the Donor States and Portugal jointly establish the bilateral ambitions and identify priority areas for bilateral cooperation and discuss how these can be best addressed with the support of the Fund for Bilateral Relations (FBR).

AIM:

The FBR Open Call # 2 aims to support innovative bilateral initiatives between Portuguese and Norwegian entities.

Specific objectives of the FBR Open Call #2 are:

- To stimulate bilateral initiatives that bring innovative approaches to any area where bilateral interest exists;
- To promote joint initiatives with clear bilateral value and concrete results;
- To foster cooperation through the support of impactful bilateral Initiatives.

Funding is made available to bilateral initiatives that demonstrate an innovative approach with a clear bilateral aim in any area of mutual interest.

¹ Established by the Council of Ministers Resolution (RCM) no. 39/2017, of March 10th, rectified by the Rectification Declaration no. 14/2017 of April 24th.

New solutions to existing societal problems or new approaches to existing solutions that can bring added value and different results, developed in close partnership and cooperation between entities from Portugal and from Norway.

All bilateral initiatives funded by MFEEE 2014-2021 should follow a Results Based Management approach that implies the definition of objectives, of measures to achieve the objectives and the measurement of progress to achieve the desired results.

The expected results of the supported bilateral initiatives should be translated into tangible products/activities (outputs) that promote cooperation between national entities and entities of the donor countries (outcome), thus contributing to the reinforcement of bilateral relations (impact).
