

## Projects to prevent and raise awareness to reduce marine litter

**In this Call of the Environment Programme, the selected projects contributed to the reduction of plastics in the oceans and to raise awareness to the challenges related to plastics in the oceans and proposed solutions.**

### Reducing plastics in the oceans through:

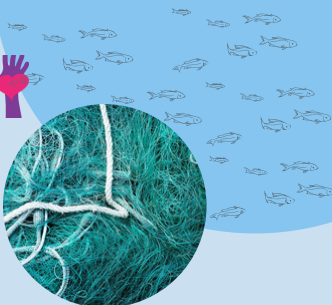

Voluntary schemes to reduce single-use plastics in the fast-food, hotel, restaurant and supermarkets

Voluntary schemes to reduce the use of plastic bottles in sectors other than beverages and plastic packaging in production, distribution and retail

Solutions that promote recycling by diversifying collection points

Collection facilities for fishing equipment recovered from marine litter

Support for promoting the use of biodegradable fishing nets

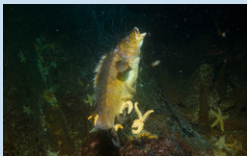

### Promoting awareness of ocean plastics challenges and proposing solutions through:

Awareness campaigns

Production and dissemination of information materials

Local campaigns for reduction of plastic marine litter
